Dear Joseph Machiah,

On behalf of the Board of Trustees, student body and faculty of the Conservatory, I thank you and the 120W Association deeply for your donation of \$40,000. This donation was designated to From Risk to Opportunity; Music Program for children of the Ethiopian Community and enables ten children to participate in this special Program in the school year 2009–2010. The second half of your contribution of \$19,800 was received by the Conservatory in June 2010 and the receipt is attached.

We have been blessed with the W120 Association's recognition of the profound power music has in making a difference in the lives of so many children. Not only this, you have felt compelled to partner with us in fulfilling our vision. We are honored that you also had faith in us as an institution and our ability to provide this gift.

It is important to remember that music education, as with any educational process, is a long-term investment. Each time we open the door to the world of music for a child, it is our responsibility, commitment and moral obligation to ensure it does not close on them. By accepting these children into our program, we have committed ourselves to their long-term growth and development. It goes without saying that this would not have been possible without the generous support of the W120 Association.

Thank you for joining us in our mission to bring support, structure, normality and beauty into the lives of these special children.

With deep gratitude,

Ronit Berman
Artistic Director
